DETAILED ACTION

Information Disclosure Statement

The information disclosure statement filed September 20, 2007 has been placed in the application file and the information referred to therein has been considered as to the merits.

Allowable Subject Matter

Claims 2-26, 28, 29, and 35-44 are allowed.

The following is an examiner's statement of reasons for allowance: The present invention is directed to a method and system for controlling access to digital streaming media content and authorizing users of the content. Each of the independent claims recite the uniquely distinct features of "generating a first authorization ticket at a first time in response to a request to access the media file from a user; generating a second authorization ticket at a second time; determining whether the first and the second authorization tickets match thereby determining whether the user is authorized to access the media file; generating a first hash at a third time, the first hash based upon the determining whether the authorization tickets match and upon data; generating a second hash at a fourth time, the second hash based upon the data; determining whether the first hash and the second hash match, wherein a match of the first and second hashes indicates the user as having been authorized and permitting the user access to the media file if the first and second hashes match; wherein: the first

authorization ticket is generated on a web server; the second authorization ticket is generated and the determination whether the first and the second authorization tickets match are performed on a global cache server; the first hash is generated on a playlist server; and the generating of the second hash, the determining whether the first hash and the second hash match, and the permitting the user access to the media file are all performed on a media server". The closest prior art, Dharmarjan (US 7,089,585), discloses a system for allowing a client to gain access to a server computer fails to anticipate or render the underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
